Finding Film Reviews

Using the Library’s Resources

When searching through Scout or any of the library’s resources to find a source, you will need to use search terms. In our case, we need to find film reviews for The Avengers, Bridesmaids, The Hunger Games or A Separation.

Circle your movie:

<table>
<thead>
<tr>
<th>The Avengers</th>
<th>Bridesmaids</th>
<th>The Hunger Games</th>
<th>A Separation</th>
</tr>
</thead>
</table>

- Director
- Lead Actor
- Lead Actor

The title of the film is going to be our main search term, and we will probably also want to use either the director’s name or the name of one of the lead actors as a second search term. Our third search term will be one of the following words or phrases:

- Motion picture review
- Film review
- Film critique

Fill the blanks with your search terms:

- Movie Name
- Actor or Director Name
- Film Review or Motion Picture Review
