Creating Permalinks to Sources from EBSCO Databases (Scout, Academic Search Premier, etc.)

First, find the source that you want to create the permalink to. Once you have clicked on the link to the source you will be on the record page, and from there it is quite easy to create a permalink.

On the right-hand side of the screen, under Tools, there will be a Permalink icon:

Once you have clicked the Permalink icon, the link will appear towards the top of the screen:

Simply copy and paste the link.
